

CYBER SECURITY AWARENESS MONTH

October is National Cyber Security Awareness Month! Join us by learning what you can do to stay safe online!

OCTOBER 2013

WHAT IS NCSAM?

National Cyber Security Awareness Month (NCSAM) is the national initiative to promote cyber security. It is meant to educate and raise awareness about staying safe online.

This year marks the 10th anniversary of NCSAM and the theme is "Our Shared Responsibility," reminding us that we all have a role in cyber security. Join us this October for four seminars that will provide helpful tips and information on various topics, relevant to the Mason community.

The seminars will be held every week from 12 to 1 p.m. with light refreshments provided at the Fairfax Campus. You are also encouraged to bring your lunch! Each week will feature a different topic, with presentations and interactive activities. Check out the IT Security web site at <http://itsecurity.gmu.edu> for additional resources, as well as StaySafeOnline.org for more tips and tricks.

Register at <http://ittraining.gmu.edu>.

SEMINARS

12:00 P.M. – 1:00 P.M.
