

# Welcome!

National Cyber Security  
Awareness Month  
Navigating Your Computer  
October 1<sup>st</sup>, 2013

---

# National Cyber Security Awareness Month

- What is National Cyber Security Awareness Month (NCSAM)?
  - NCSAM is a national initiative started in 2004 by the Department of Homeland Security, in conjunction with the National Cyber Security Alliance (NCSA) and the Multi-State Information Sharing and Analysis Center (MS-ISAC)
  - It was created to help educate, raise awareness, and promote cyber security across both the public and private sectors

# What is Mason doing for NCSAM?

- Seminars

- The IT Security Office will be hosting 4 seminars, one each Tuesday in October (with the exception of October 29<sup>th</sup>)
- Different topic each week
- Open to the entire Mason community
- Register at <http://ittraining.gmu.edu>

- Online Resources

- In addition to the seminars, there will be additional information and resources posted on the IT Security website
- All presentations and handouts from the seminars will be posted

# This week for NCSAM...

- Navigating Your Computer
  - This session will allow you to get your most pressing computer questions answered! Our great staff will answer questions, perform demos, and take you through the basics of navigating your computer.
  
- Next week...
  - Staying Safe on Your Mobile Device
    - Safety tips, tricks, and demos on how to stay safe while using your mobile device!

# Cyber Security Awareness Month

Cyber Security is “Our Shared Responsibility” so  
spread the word and help raise awareness!
